Application of product:

FeMn fume is a by-product of the ferromanganese (FeMn) production in electric arc furnace (EAF). FeMn fume may be used in its original undensified form, densified, micropelletized or as secondary raw material in form of briquets for manufacturing iron and non-ferrous metals and ferroalloys, for fillings. Products shall comply with the declared characteristics and with all of the technical performances listed in the Technical Data Sheet Sheet for FeMn fume No. TL-OFZ-02/19 (effective from May 26, 2020) and in the Product Safety Data Sheet for FeMn fume. Products shall comply with the requirements of the Regulation (EC) No. 1907/2006 of the European Parliament and of the Council as amended. Hygiene and health aspects are described in the Product Safety Data Sheet for FeMn fume. Products shall be stored under special conditions defined in the Technical Data Sheet and in the Product Safety Data Sheet.

Inspection Body performed the initial inspection of the factory production control according to procedures of the Inspection Body. This certificate attests that all provisions concerning the assessment and verification of constancy of performance described in the document Technical Data Sheet for FeMn fume No. TL-OFZ-02/19 and in the Product Safety Data Sheet for FeMn fume are applied and that

the factory production control is assessed to be in conformity with the applicable requirements.

This certificate was first issued on 20. 01. 2020 under the Report of initial inspection.

The validity of the certificate: unlimited.

This certificate will remain valid as long as neither declared essential characteristics of product nor the manufacturing conditions in the plant are modified significantly, and unless suspended or withdrawn by the Inspection Body.

The validity of the certificate may be confirmed by contacting e-mail address: qualiform@qualiform.sk.

Notice: Continuous surveillances of factory production control as the part of certification, which confirm the validity of this certificate, are performed at least once in 12 months.
